

JASON LIVES!

HE PLAYS GUITAR

- Do you dream fondly of **blowing people away** with your guitar playing?
- Do you aspire to be an **axe-wielding monster**?
- Do you crave the status of being a gun-slinging, **killer guitar outlaw**?
- Do you want other guitarists to **regret the day they were born** upon hearing your hair-raising guitar pyrotechnics?

If you answered yes to any of the above questions,

YOU NEED A PSYCHIATRIST,
not a guitar teacher!
